RE: Note of Clarification regarding June 12, 2020 communication to all mission personnel and Louisville staff

Dear Colleagues in Ministry,

Some of you have asked how the letter to partners will be shared with them, this letter was included in my Friday, June 12 communication to all staff.

I have been working with Area Coordinators to pull together email addresses for our partners and will send the communication from my office. I will copy the Area Coordinator, Regional Liaison and mission co-workers relating directly to the partners.

I know there are cases where email is not easily accessible and situations where translation is needed. In these situations, I will work with the area offices to ensure that our partners receive the letter.

Faithfully in Christ,
Sara
