Note: In all, 80.0% of congregations reported the race-ethnicity of their members in 2011. We used other sources to estimate the racial-ethnic membership of non-reporting churches. This includes information from the Black Congregational Enhancement Office, the Native American Congregational Enhancement Office, the Asian Congregational Enhancement Office, and previous years' reports. We also worked with presbytery offices to resolve discrepancies for a number of churches that did report race-ethnicity data. As a result, the table reflects information for 99.7% of congregations.
