Diversity in Leadership Network

The Presbyterian Church (U.S.A.) is committed to creating an open, inclusive, compassionate, and healthy church organization by creating culturally proficient organizations.

The Diversity in Leadership Network was created as a result of an intentionally collaborative effort among the six agencies of the Presbyterian Church (U.S.A.) to assist the whole church in becoming a diverse and multicultural community of faith and employment. As leaders are identified within the church and its agencies, each one of our agency partners will be enriched, and in turn the whole will be strengthened.
