Sources of Data

Unless otherwise noted, membership data presented in this publication are those reported by congregations to the Office of the General Assembly and are from the Session Annual Statistical Report. Ministerial data are reported by stated clerks of presbyteries. Data on candidates for ministry are from the Office for Preparation for Ministry. Notations on sources appear on each financial table.

Guidelines for Use

All statistics for synods and presbyteries in this edition of *Comparative Statistics* (as in earlier editions) are based on current boundaries. To the extent that boundaries have changed, the statistics presented cannot be compared with statistics presented in previous editions of *Comparative Statistics*.

Tables are numbered from 1-15. Check table titles (not table numbers) in making comparisons with membership and ministerial data in previous annual editions.

Most percentages have been rounded. When the observed value is at dead center between two adjacent values it is rounded to the nearest even number. Thus, 7.5 is raised to 8, while 6.5 is lowered to 6. (Theoretically, even and odd numbers occur with equal frequency in the long run. Consequently, in rounding consistently to the nearest even number, half of the values will be raised and the other half lowered, thereby canceling out errors and leaving the sums free of rounding error.)

Definitions: Membership

Membership Gains and Losses are those reported annually to the Office of the General Assembly by congregations (described in the *Book of Order* 2009–2011, Sections G-5.0200, G-10.0302 (a & b), D-12.0000).

Total Gains in membership is the number derived by adding gains through: Profession of Faith, Reaffirmation, and Restoration (the number of persons received during the year through professions of faith; reaffirmation; and restoration to the active members' roll after removal, deletion or temporary exclusion); Certificate (persons received into membership upon receipt of a certificate of transfer from another church); and Other (all other additions to the active roll, including adjustments)—all categories which appear in the *Minutes of the General Assembly, Part II: Statistics*.

Total Losses in membership is the number derived by adding membership losses through: Certificate (persons dismissed to other churches for whom certificates of transfer have been issued); Death (members whose names have been deleted from the active roll because of death); and Other (all other persons whose names have been removed from the active membership roll through transfer from the active to the inactive roll, deletion from the active roll for any other reason, or temporary exclusion or removal from the active roll).
